About Aetna Medicare Rx offered by SilverScript

Plan Costs

This section includes information about your monthly premium, and cost-sharing amounts during the Initial Coverage Stage for Aetna Medicare Rx offered by SilverScript. Although most members do not reach the Coverage Gap Stage (Stage 3) or the Catastrophic Coverage Stage (Stage 4) during the plan year, a summary of your costs in those stages is also included.

Monthly Premium

Your coverage is provided through a contract with your former employer/union/trust. Your plan benefits administrator will let you know about your plan premium, if any.

Medicare Part D Drug Payment Stages

All Medicare Part D prescription drug plans have drug payment stages where drug costs may vary. You move through each stage based on the amount either you or the plan spend on prescription drugs. See the following section for information on the Medicare Part D drug payment stages. The Part D *Explanation of Benefits (EOB)* and other plan materials include additional information on the four drug payment stages.

Stage 1: Deductible Stage

Because you have no deductible, this payment stage does not apply to you.

Stage 2: Initial Coverage Stage Cost Sharing

During the Initial Coverage Stage, you pay a portion of your drug costs, and the plan pays its portion. The following tables show what you pay until your total yearly drug costs reach \$5,030. Total yearly drug costs are the total drug costs paid by both you and Aetna Medicare Rx offered by SilverScript. You may get your drugs at network retail pharmacies or through the mail-order pharmacy.

Stage 3: Coverage Gap Stage Cost Sharing

The coverage gap begins after the total yearly drug costs (including what the plan has paid and what you have paid) reaches \$5,030.

Due to the additional coverage provided by Aetna FEHB Plan, you have the same copayments or coinsurance that you had during the Initial Coverage Stage. Therefore, you may see no change in your copayment and/or coinsurance until you qualify for catastrophic coverage.

Stage 4: Catastrophic Coverage Stage Cost Sharing

During this payment stage, the plan pays the full cost for your covered Part D drugs. You pay nothing.

- For excluded drugs covered under our Non-Part D Supplemental Benefit, you'll continue to pay the same cost sharing amount. For additional information, call Customer Care at the number on your ID card. If you meet your Max Out of Pocket, then you will pay nothing.

Aetna FEHB Plan Annual Maximum Out-of-Pocket (MOOP)

Maximum Out-of-Pocket (MOOP) — The most a person will pay in a year for deductibles and copayments/coinsurance for covered benefits. This amount can vary by plan.

After you reach your individual maximum out-of-pocket costs of \$2,000, Aetna FEHB Plan will pay the rest of your annual drug costs.

How will I determine my drug costs?

Aetna Medicare Rx offered by SilverScript groups each medication into one of five tiers. Use your formulary to find out the tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier, which coverage stage you are in, and what pharmacy you use. As you move from stage to stage, the amount you and the plan pay for your drugs may change. If the actual cost of a drug is less than the normal copayment or coinsurance for that drug, you will pay the actual cost, not the higher copayment or coinsurance.

Which pharmacies can I use?

More than 65,000 pharmacies with over 23,000 preferred pharmacies nationwide make up the pharmacy network. These include retail, mail-order, long-term care and home infusion pharmacies. To find a network pharmacy near your home or where you are traveling in the United States or its territories, call Customer Care or visit Caremark.com.

You generally must use a network pharmacy in order to receive full benefit coverage on your prescriptions. You may get drugs from an out-of-network pharmacy in an emergency, but you may have to pay the full cost (rather than your normal share of the cost) at the time you fill your prescription. If you use an out-of-network pharmacy in an emergency, we will reimburse you your total cost minus your cost-share amount for the drug. You must submit a paper claim in order to be reimbursed.

Please note: After the mail-order pharmacy receives an order, it typically takes up to 10 days for you to receive your prescription drug. Specialty pharmacies fill high-cost specialty drugs that require special handling. Although specialty pharmacies may deliver covered medicines through the mail, they are not considered “mail-order pharmacies.” Therefore, most specialty drugs are not available at the mail-order cost share.
